General Applications / AI & Robotics (m/f/d)

About the Job

We're looking for motivated individuals (m/f/d) to join one of our portfolio companies and contribute to the development of its robotics-focused innovations.

In your day-to-day work, you'll focus on exploring opportunities to align your skills and expertise with the company's needs and get the opportunity to contribute to shaping its cutting-edge robotics strategies. You'll play a key role in supporting its vision to lead and innovate within the industry.

Join our portfolio company: A German dual-use technology company that develops unmanned ground vehicles to spearhead automation in both governmental and civilian use cases.

In this role, you'll:

Work in a dynamic and innovative environment that encourages creativity and forward-thinking
Collaborate with a highly skilled, international, and supportive team dedicated to pushing the boundaries of robotics innovation
Contribute directly to the development and growth of dual-use robotics products with impactful applications in both commercial and defense sectors
Gain hands-on experience with cutting-edge technology in a fast-paced, emerging industry
Play a critical role in shaping the company's future during its formative stages, offering opportunities to influence key decisions and strategies
Tackle exciting challenges with real-world impact, from R&D breakthroughs to scaling operations
Benefit from a flat hierarchy that fosters open communication, agility, and quick decision-making
Explore opportunities for rapid personal and professional growth as the company expands
Define the future of a company poised for significant industry disruption and success
Be part of a mission-driven organisation focused on innovation, excellence, and creating value in robotics

Your Profile

Demonstrated expertise in areas such as Business Development, Sales, Signal Processing, Mechatronics, Software & AI, or Operations
Professional fluency in English is essential, with German proficiency being a strong advantage
Open to opportunities ranging from Junior to Leadership roles, depending on your experience and career goals
A background in, or passion for, industries like Robotics, Automotive, or Defense tech is highly valued
Willingness to relocate, particularly to the Munich area, to join an innovative and fast-growing team

Please note that we are looking for support in one of the Munich/Berlin/London offices of our portfolio company. Eligibility to work within the EU is required as well.

Benefits and Perks

Competitive salary and benefits package
A shaping role in an emerging dual use company
Opportunity to work with a highly innovative, international and dynamic team
Room for professional growth and development
Participation in the company's success

Apply below and become a part of our success story!

Our Commitment to Diversity and Inclusion

Project A is committed to diverse and equal opportunities hiring for all – applicants, candidates, and employees alike. We value humans – with all our glorious multifaceted backgrounds, perspectives, and experiences – and look forward to your application.
