(Senior) Data Scientist (f/m/d)

Your Mission

As a (Senior) Data Scientist specializing in simulation model development, your mission is to conceptualize, design, and refine simulation models that drive our platform's analytical capabilities. By applying advanced analytical techniques and machine learning algorithms, you will create models that are both accurate and predictive, providing invaluable insights into the real estate industry.

Your Responsibilities

You will develop and refine simulation models for various scenarios in the real estate industry. You will apply statistical methods and machine learning algorithms to enhance model accuracy. You will validate models with domain experts to ensure realism and compliance. You will conduct research to stay updated with the latest advancements in data science and simulation techniques. You will collaborate with cross-functional teams to integrate simulation models into the platform.

Your Profile

You possess a strong background in statistics, mathematics, physics, or machine learning. You possess proficiency in programming languages like Python. You have the ability to translate complex data into actionable insights. You have excellent problem-solving skills and attention to detail. You possess strong communication skills in German and English to effectively convey technical concepts to stakeholders.

Bonus points:

You have experience in the real estate industry or related fields. You are familiar with advanced simulation software and tools.

Why Priedium?

Your Benefits: Enjoy an attractive membership with Wellpass, a subsidy for your job ticket, and free snacks and beverages in the office. **Your Vacation:** Take advantage of 30 paid vacation days per year. **Your Flexibility:** Embrace the flexibility to work from home, our beautiful office in the heart of Werksviertel, or even on a workation. We highly value a hybrid way of working. **Your Equipment:** Work with the latest technology and digital tools. Choose your preferred equipment and work environment. **Your Events:** Experience unforgettable company and team events that not only strengthen bonds but also provide loads of fun and inspiration. From co-operative outdoor activities to legendary parties – there's something for everyone! **Your Team:** Join our diverse and highly motivated team, and actively shape our unique company culture. We believe that a diverse workplace makes us stronger.

About Us

At Priedium, we're on a mission to fight climate change by reducing building emissions. We develop cutting-edge solutions for sustainable and profitable real estate management, and are always on the lookout for self-starters who share our passion for making a positive impact.
