Project Manager (f/m/d) Global Procurement Projects

A Snapshot of Your Day

As a Project Manager (f/m/d) Global Procurement Projects at Siemens Energy, you will drive strategic procurement initiatives and implement cutting-edge tools and processes across our worldwide locations. You will improve procurement efficiency, drive our mission, and deliver outstanding value to our customers, while collaborating with diverse teams and departments.

How You'll Make An Impact

Lead global strategic procurement projects and ensure their successful implementation across diverse locations
Coordinate overarching procurement topics across all our global locations
Actively participate as a project member in cross-departmental global projects (e.g. IT, Industrial Engineering, Production etc.) contributing your expertise to drive world-class results
Ensure procurement activities are completed flawlessly, meeting all set objectives and timelines
Implement new tools and processes in headquarters and various locations, ensuring strict adherence to standard methodologies and achieving ambitious goals
Determine the most effective strategies for cost management, supplier relationships, and risk mitigation

What You Bring

A Master's degree in engineering, industrial engineering, business informatics or business administration
Several years of management experience in operational or strategic procurement within a large multinational company
Proven track record in leading global procurement teams with a focus on achieving outstanding results
Experience in the transmission business is an advantage
In-depth knowledge of procurement processes and tools
Willingness to travel as needed to support global project requirements
Strong interpersonal and communication skills

About The Team

Our Grid Technologies division enables a reliable, balanced, and digital grid. The power grid is essential for the energy transition. Siemens Energy offers a leading range of solutions in HVDC transmission, grid stabilization and storage, high voltage switchgears and transformers, and digital grid technology.

Who is Siemens Energy?

At Siemens Energy, we are more than just an energy technology company. We meet the growing energy demand across 90+ countries while ensuring our climate is protected. With more than 94,000 dedicated employees, we not only generate electricity for over 16% of the global community, but we're also using our technology to help protect people and the environment.

Our global team is committed to making sustainable, reliable, and affordable energy a reality by pushing the boundaries of what is possible. We uphold a 150-year legacy of innovation that encourages our search for people who will support our focus on decarbonization, new technologies, and energy transformation.

Our Commitment to Diversity

Lucky for us, we are not all the same. Through diversity we generate power. We run on inclusion and our combined creative energy is fueled by over 130 nationalities. Siemens Energy celebrates character – no matter what ethnic background, gender, age, religion, identity, or disability. We energize society, all of society, and we do not discriminate based on our differences.

Rewards/Benefits

In addition to an attractive remuneration package in line with the market, you can expect an attractive employer-financed company pension scheme. We also offer the opportunity to become a Siemens Energy shareholder. We offer our employees the opportunity to work flexibly and remotely, and our inspiring offices provide space for collaboration and creativity. The professional and personal development of our employees is very important to us. We provide them with the opportunities to learn and develop in a self-determined way, various attractive programmes and learning materials are available for this purpose. In relation to the "compatibility of family and work", we have a wide range of offers, e.g. flexible working time models, childcare places at many locations, the possibility of trial part-time work or even a sabbatical.

We value equal opportunities and welcome applications from people with disabilities.
