Working Student Customer Solutions Manager Intern

Description

Amazon Web Services (AWS) Working Student positions are part-time (20 hours/week) for 12 months starting from March / April 2025.

Do you want to be a key part of a team focused on expanding the reach of cloud computing across customers? As an Amazon Web Services (AWS) Customer Solutions Manager (CSM) working student you will work with a team of CSMs responsible for helping guide AWS customers along their multi-year journey to the cloud. You will guide the customer through the operational, educational and governance aspects of a successful AWS cloud journey. In this highly visible role, you will incorporate program management, customer cloud journey acceleration, and customer value realization to ensure AWS teams work together effectively and efficiently to deliver outcomes for the customer.

If this sounds exciting to you - come build the future with us!

Your Working Student Placement Includes

As a working student you will drive your own learning and development with guidance and coaching from your manager, buddy and colleagues around you. You will be part of a team of Amazon Customer Solutions Managers that you will help to create technical projects such as developing re-usable demos and prototypes, building reference architectures, researching on challenging technical questions from customers, or developing internal tools that help CSMs to be more productive. You get the opportunity to learn from top AWS subject matter experts how to leverage bleeding edge technology to solve real-world customer problems.
